WORK EXPERIENCE

AVANADE | UX DESIGN TALENT COMMUNITY
Seattle, WA / June 2022 – August 2022

- Demonstrated proactive work skills when faced with major challenges or constraints
- Learned project essential 3D modeling skills with no prior experience within a short timespan
- Incorporated various flexible design techniques to accommodate for accessibility & inclusiveness
- Developed advanced communication skills both in formal settings and when put on the spot

CENTRAL PARK TENNIS CLUB | MAINTENANCE ASSISTANT
Kirkland, WA / April 2017 – May 2022

- Demonstrated advanced problem-solving skills for both physical and technical issues
- Responsible for being a first responder to on site emergencies with the ability to work under pressure
- Developed good communication and organizational skills through consistent coworker interaction
- Displayed attention to detail amidst large projects & often gave suggestions for improvements

PROJECTS

Project Snooze – A Baby Sleep Website (UX Design)
A One in all Resource Hub for New Parents

- Conducted extensive research on common issues experienced by parents
- Surveyed multiple families in-person to test interactive design idea's
- Created both low and high-fidelity models utilizing Figma
- Analyzed websites with a similar theme to reduce possible UX & UI flaws
- Incorporated smart but easy-to-use navigation for non-native speakers

Teacher Lesson Management App (UX Design)
Create & Update Lessons on the Fly with Application Integration

- Created both the logo and overall aesthetic using photoshop, illustrator and Figma
- Collaborated with other designers and professionals to create a prototype
- Gathered insight from experienced teachers regarding user pain points from other similar existing apps
- Displayed great time management with a quickly approaching deadline
- Assisted in UX research and organization of data
